

Shekhar Pareek

Frontend Engineer · React Developer

India · Open to Remote / On-site shekharpareek30@gmail.com +91 96941 93457 linkedin.com/in/shekhar-pareek
mera-portfolio-lime.vercel.app

Frontend Engineer with **4.2 years** building production web applications with **React.js** and **Next.js**. I ship fast, responsive, SEO-friendly interfaces and full-stack features — component-driven UIs, server-side rendering, REST API integration, authentication, and admin dashboards. Strong focus on **reusable component architecture**, performance optimization, and seamless user experience across **15+ production applications**.

TECHNICAL SKILLS

Frameworks	React.js, Next.js (App & Pages Router), SSR / SSG, React Hooks
Core React	Component Architecture, State Management, Custom Hooks, Reusable UI Systems
Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Styling	Tailwind CSS, Bootstrap, Responsive & Mobile-first Design
Backend	Node.js, REST APIs, Webhooks, Authentication, API Integration
Tooling	Git, GitHub, Vercel, Performance Optimization, A/B Testing
Platforms	Shopify (App development, APIs, Polaris, Functions)

PROFESSIONAL EXPERIENCE

Frontend Engineer · React / Next.js

2022 – Present

[Sunarc Technologies](#)

- Built **production React and Next.js applications** — component-driven UIs, server-side rendering, API routes, and admin dashboards — for 15+ apps across US, EU, UK, Malaysia, and Canada.
- Architected **reusable React component systems** with custom hooks, scalable state management, and authentication handling for embedded admin and storefront interfaces.
- Engineered real-time data sync and automated workflows using **Node.js, REST APIs, and webhooks**.
- Optimized React app performance through lazy loading, code-splitting, memoization, and mobile-first responsive UI.
- Built dynamic, data-driven UI components — variant pickers, product templates, and collection layouts — improving user experience and conversion.
- Collaborated directly with international clients on requirements, deployment, troubleshooting, and feature delivery.

KEY PROJECTS

Embedded Admin App — React + Node.js

Full-stack embedded **React application** — product sync, order sync, and admin dashboards with secure API integrations and session-based authentication.

Dynamic Storefront UI — React

Responsive, performance-optimized product pages and collection templates built with reusable React components and data-driven rendering, tuned for Core Web Vitals and conversion.

Portfolio & Web Apps — Next.js on Vercel

SSG/SSR sites deployed on Vercel with optimized routing, image optimization, and clean component architecture.
